EXPERTISE

Java Python SpringBoot
Swing OpenCV
Numpy - Pandas
MongoDB SQL
PowerBI
Data Structures REST API
VS Code IntelliJ IDE
Problem solving

EDUCATION

BACHELOR'S OF
TECHNOLOGY

Jai Narain College Of
Technology, Bhopal 6.9
CGPA
2022 – 2026

INTERMEDIATE

Christ Jyoti Sr. Sec. Satna
79%
2020-2021

PROFILE

Highly motivated engineering graduate with a strong academic record and a solid foundation in software development principles and data structures. Proficient in Python and Java, with hands-on experience in building and debugging scalable applications through academic projects. Eager to leverage technical skills and a passion for problem-solving to contribute effectively to innovative software solutions.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER INTERN
UVNetwork Pvt. Ltd.

FEB 2026 - PRESENT

Currently Acknowledging....

MARKETING INTERN
Corizo pvt. Ltd

DEC 2025 - JAN 2026

Conducted comprehensive competitor analysis across 5 key industry rivals, identifying 3 new content opportunities for the Q3 marketing strategy.
Managed content calendar for Instagram and LinkedIn, increasing follower engagement by 20% over three months through targeted, interactive campaigns.

- Developed exceptional communication as well as problem solving skills.
- Pitching ideas, reporting progress, and collaborated across teams.

PYTHON INTERN
Techsim Plus Pvt. Ltd.

JUN 2024 – AUG 2024

- Completed intensive training in Python programming with focus on Data Science and Image Processing applications
- Developed various intrusive logic behind the working of various kinds of libraries used in Python

Projects

- Heart Attack Prediction Machine: Developed a machine learning model to predict heart attack risk using patient health data with 85%+ accuracy Implemented multiple classification algorithms including Logistic Regression, Decision Trees, and Random Forest.
- Image Processing Application: Built image processing solutions using OpenCV for edge detection, filtering, and image enhancement Applied various computer vision techniques including histogram equalization and morphological operations
- Data Analysis Dashboard: Created interactive data visualization dashboards using Power BI for business intelligence Analyzed datasets with 10,000+ records to extract actionable insights.
- Journal Database : Journal DataBase is a backend RESTful API designed to manage journal entries, built on a robust Java and Spring Boot foundation.
